## REPORTS SYSTEM

### overview

Web2school offers more than 150 canned reports, individual State reports, and 3 levels of filtering. Users can target very specific data for display and output. Reports are based on Student Demographics, Attendance, Grade Reporting, Scheduling, Progress Reporting, Discipline, Health Records, Personnel, or Standards. Reports can be printed by individual student, grade level, the entire school, home-room, teacher, course, descriptive category or gender. All canned reports are in RTF format which can easily be opened/edited using MS Word. Options for custom reports are available through Jasper/iReports.
